Subject: Update on PROP - next steps (CDN)

Hi Chris, we had a successful meeting with Mike today on the PROP. We shared today's version with him and hope to get his feedback within the next few days, possibly as early as tomorrow.

Based on this discussion, our plan is to begin our internal Canadian approvals process with a "Mike-approved-for-distribution" version of the PROP (i.e. a version which incorporates any critical changes Mike will want to see made before we distribute the report).

We envision a two-phase approvals process:

- July - no later than early next week: internal vetting within ECCC, the province and other government departments
- August - formal approvals by ECCC senior management (including our Deputy Minister and Minister)

Please let me know if you have any concerns with the above. I believe there's a staff GLEC Secretariat call tomorrow scheduled where Ash can provide further details and answer questions if necessary.

Thanks,

Carla

Subject: Re: Latest PRP Draft

Hi Chris

Yes, we're almost there! Thanks for the revised draft. Confirming that I shared the latest draft with Mike late this afternoon; Ash and I are meeting with Mike in the morning to discuss status and next steps with him.

I suggest we hold off sharing broadly with annex leads for the time being, but will discuss this with Mike in the morning as well.

Great news - and a big thank you - for taking on the formatting!

Cheers,

Carla

Subject: RE: Latest PRP Draft

Hey Carla:

We're getting there!

This is the latest draft. The only change I made is to address Linzi's confirmation that some highlighted language was accurate and that a related comment could be deleted. I have done so.

A few things...

- From your e-mail, I gather you have shared the version you sent me with Mike and he is reviewing? By copy of this e-mail, I **will share this latest draft with Cam** and seek his review (noting again that I have not yet addressed the comments he has provided thus far – up through the Annex 2 Chapter).
- I am wondering if we should share this latest draft with the Annex Co-leads. Or, should we wait until we hear from Mike/Cam?
- We are working on getting a contractor to take on the formatting/finalizing function. I will keep you posted.

Onward and upward. ☺

Thanks.

Subject: RE: Latest PRP Draft

Hi Chris:

Happy 4th of July! And thank you for getting this revised draft over to us so quickly.

We've reviewed and have accepted all of your additional edits Chris. Today's 11 p.m. version is attached. As you point out, there are a few comment boxes remaining, and we still need to land on a revised Annex 6 (AIS). Given annex co-lead schedules I understand that we may still be a week away from a revised AIS annex.

Given our need to keep going, it makes sense to me to share this revised version with Mike (and to circle back to him with a revised AIS chapter when that's ready).

Cheers,

Carla

Subject: Latest PRP Draft

Hi Carla:

I attach:

1. An updated PRP. As you will see, I accepted 99% of ECCC's changes, and there are only 5-10 comments that remain (except in the Annex 6 Chapter, but see below). As I indicated on our call yesterday, I have not yet incorporated comments received from Cam thus far into this draft.
2. A separate revised Annex 6 Chapter that I believe represents Jamie and Ash's latest collaboration. I did not touch the Annex 6 Chapter that is embedded into the PRP, and I have not looked at the revised Annex 6 Chapter because I am not sure Jamie and Ash are finished with it.

Hope you had a good Holiday.
